OBJECTIVES

Obtaining an internship position as a web developer to apply my skills and ideas to the advancement of the products as well as the company, while learning and confronting myself with new challenges.

EDUCATION

Preparatory Course for International Students

Jan 2014 — Present

Studienkolleg Hamburg - Universität Hamburg

Prerequisite course for studying at a university in Germany.

Algorithms

Jun 2014 — Present

Coursera - University of Washington

An introduction to fundamental data types, algorithms, and data structures, with emphasis on applications and scientific performance analysis of Java implementations.

The Hardware/Software Interface

Jun 2014 — Present

Coursera - University Of Washington

This course examines key computational abstraction levels below modern high-level languages; number representation, assembly language, introduction to C, memory management, the operating-system process model, high-level machine architecture including the memory hierarchy, and how high-level languages are implemented.

Programming Languages

Oct 2013 — Dec 2013

Coursera - University of Washington

Introduction to the basic concepts of programming languages, with a strong emphasis on functional programming. It gives learners a framework for understanding how to use language constructs effectively and how to design correct and elegant programs.

CS.169x Software as a Service

Oct 2013 — Dec 2013

Edx - UC Berkeley

Fundamentals for engineering long-lived software using Agile techniques to develop Software as a Service (SaaS) using Ruby on Rails. This course teaches students sophisticated SaaS and Agile skills, such as working with Legacy code, Test Driven Development, Behavior Driven Design.

TECHNICAL SKILLS

- Programming Languages (good knowledge): Ruby, C, PHP, Javascript, SQL.
- Programming Languages (have experiences): Java, Python, C++.
- Web Development: Ruby on Rails, JQuery, HTML, CSS, Bootstrap.
- Software Engineering: Agile, TDD, BDD, Working with existing codebase.
- Platform: Linux, MacOS, Windows.
- Programming Environment: Vim, Eclipse.
- Version Control: Git, Github.
- Typing Speed: 70 WPM.

PERSONAL SKILLS

- Quick learner
- Punctuality
- Self-motivation
- Good communication skill
- Hard-working & honest
- Ability to work both in team and independently
- Critical and logical thinking & problem solving

LANGUAGES

- English: fluent, level C1 of CEFRL
- German: intermediate, level B2 of CEFRL
- Vietnamese: native language

HOBBIES

- Programming
- Swimming
- Reading
